

Declaration of Conformity

For plastics materials coming into contact with food

bekuplast GmbH D- 49824 Ringe, Industriestraße 1

We confirm to our business partners, that the transport and storage containers of bekuplast GmbH, which are supposed to be utensils, are appropriate for storage and transport of food and are allowed to come in close interface with food.

The use of our products for transport and/ or storage of food is non-hazardous. Our storage containers are conform to the national and international norms for the use in the food sector. Thus our products are labeled with the food safe label acting as an indicator for guarantee.

We herewith declare that the following products comply with the statutory of the "Bedarfsgegeständeverordnung" (German Commodities ordinance) as well their equivalents in the European Plastics Directive, and the (EU) regulation 1935/2004, as amended from time to time.

In case that the products are made of restricted materials (SML/QM), the maximum permissible values of the regulation 10/2011 are complied.

The current texted of the regulations can be downloaded at http://eur-lex.europa.eu.

The total and specific deviations are lower than the legal permissible values of the regulation 10/2011 if applied pursuant to the specification.

The products applied as utensils are fabricated of the following polymers:

HDPE (high density polyethylene) PP (polypropylene)

Our products do not contain any ingredients which are restricted in use in the food sector. We do not use any functional plastic barrier.

Specification for intended use:

 duration and temperature of treatment and storage in contact with food: tested for 10 days at room temperature (Celsius) (global migration 10/2011)

Further information about the confirmation of conformity for reusable transport boxes can be found at "pro-K Industrieverband Halbzeuge und Konsumprodukte aus Kunststoff e. V.":
